

## Summer 2022 Social Skills Role Play Gaming Group-Camp

Board games and "pen and paper" tabletop role playing games offer adolescents, teens and young adults a chance to practice important skills in a fun, non-threatening and effective way. Through the intentional use of games, they gain experience with social and emotional regulation, social problem solving, working together, seeing things from multiple perspectives, and reflecting on their own thoughts, feelings, actions. They can face and overcome real life challenges in a safe and supportive environment - a collaboratively created world - where the stakes aren't as high as in the real world. The skills and relationships they develop in game generalize into confidence and community outside of the game.

In a developmental social gaming group, members will take on the role of a character they help create, in a world they help create, to solve mysteries, overcome challenges, and be the heroes of their own adventure stories.

Summer Groups meet for one week, Monday-Friday from 9-12pm or 1-4pm. Sessions are offered at both the Marietta and Johns Creek locations. The fee is \$710 for new members. New members must complete an initial intake. Please call or email for more detailed information regarding specific dates and ages for each location.
